The Solent Rib 650 is one of the most popular sized ribs. It handles perfectly, in both calm and rough waters. The deep V hull grips the water so the rib can travel fast with stability. The weight and balancing of the rib have been carefully designed so that you don't slam down on the waves or are twisted and turned - you'll feel safe in this rib. Because it handles well you'll be able to use it more often, in rougher conditions knowing that it will hold its own. It will comfortably seat eight, yet it can be towed behind a normal family car. Rigged with a 75hp the rib can achieve 25 knots and with a 150hp it can achieve speeds in excess of 50mph.
